HIROIN IDを入力

弘前大学のロゴマークのあるこのページで、**User Name**と**Password**に皆さんの**Hiroin ID**とそのパスワードを入力し、**Login**を押します。（弘大メールやTeamsを使うときの**@マークの前**とその**パスワード**です。）

The image shows a login page for Hiroin ID. At the top left is the Hirotsuki University logo, which consists of a stylized flower with pink, blue, and green petals around a central green circle, next to the text "HIROSAKI UNIVERSITY". Below the logo is the text "Login to Atypon SP". The main form contains two input fields: "Username" and "Password". A red oval highlights these two fields. Below the "Password" field are two checkboxes: "Don't Remember Login" and "Clear prior granting of permission for release of your information to this service.". A red "Login" button is positioned below the checkboxes. To the right of the form are two links: "> For" and "> Need". A green speech bubble points to the "Username" field, containing the text "Hiroin IDの@マークの前とそのパスワードです！". Below the main form is a smaller inset showing the same form with the "Username" field filled with "oyamak" and the "Password" field filled with ".....". This inset also has the same checkboxes and links as the main form.

INTRODUCTION
HEDONIC EATING

The conscious perception of the hedonic sensory properties of caloric foods is commonly believed to guide our dietary choices. Current and traditional models implicate the consciously perceived hedonic qualities of food as driving overeating, whereas subliminal signals arising from the gut would curb our uncontrolled desire for calories. Here we review recent animal and human studies that support a markedly different model for food reward. These findings rev
